

Sollatek is a leading manufacturer of specialist products to protect consumer and industrial electrical and electronic equipment for use in many different industries where clean regulated mains power is critical to their continued function. Now with offices and an active distribution network in 30 countries around the world, Sollatek has grown rapidly to become a truly global company.

Voltshield™ The Voltshield Guard range prevents damage to equipment from over or under voltage levels of long duration. Works by disconnecting power when voltage level exceeds set parameters. Reconnects again when power returns inside parameters for a pre-set period. Fully automatic operation. Generally rated at 6 amps, the Guards range includes sensitivity settings using the iSense™ dial.

FridgeGuard

Protection for fridges, freezers, coolers and pumps.
Low voltage protection.

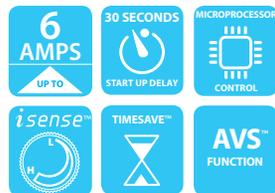

Features

HivoltGuard

Protection for TVs, media centres, satellite/vsat, and computers.
High voltage protection.

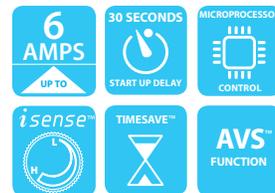

Features

TVGuard

Protection for TVs, media centres, satellite/vsat, and computers.
High voltage protection.

Features

VoltGuard

Complete protection for ALL domestic appliances up to 7 Amps. Both High and Low voltage protection.

Features

NotebookGuard

Universal in-line plug-in adaptor suitable for all laptops. Disconnects the power when voltage goes too high. It will reconnect the mains to the laptop when power returns to normal. High voltage protection.

Features

A/C Guard

Switches off air conditioner instantly when a power problem occurs, reconnecting it only when the mains supply stabilised. Both High and Low voltage protection.

Features

AVS13

Complete protection for ALL domestic and office appliances up to 13 Amps. Both High and Low voltage protection.

Features

AVS15

Protection for air conditioners, freezers and coolers up to 15 Amps. Both High and Low voltage protection.

Features

AVS30

Protection for air conditioners, freezers and coolers up to 15 Amps. Both High and Low voltage protection.

Features

Voltsafe™ The Voltsafe range comprises a range of devices specifically to stop short-term disturbances, created by lightning strikes, RFI, power stations or nearby equipment switching on and off, from causing damage to equipment.

Multiguard MG-1 and MG-2 A rugged 4-way protection strip. On 4 protected outlets, the Multiguard protects against spikes/surges and has a maximum power of 13 amps. Ideal for: IT rooms, and is especially useful for computers and ideal for home use with video, TV, Hi-Fi and all electronic appliances.

	MG-1	MG-2	MGX-1	MGX6-1	MGX-2S
Nominal Voltage	230V	230V	230V	230V	230V
Current Rating	13Amps	13Amps	13Amps	13Amps	10Amps
Frequency	50/60Hz	50/60Hz	50/60Hz	50/60Hz	50/60Hz
Mains Spike Response Time	<10ns	<10ns	<10ns	<10ns	<10ns
Mains Spike Discharge Amps	4.5kA	4.5kA	4.5kA	4.5kA	4.5kA
Spike Protection	480J	480J	160J	160J	160J
Socket Availability	UK	UK	UK	UK	Schuko/Euro
Cable Length (m)	1.5	3	1	3	2
Power LED (neon)	✓	✓			✓

Multiguard MGX-1 and MGX6-1 The Voltsafe Multiguard MGX-1 is a 4-way protection strip, and the Multiguard MGX6-1 is a 6-way protection strip and an economical version of the MG-1. Rated up to 13 amps. Ideal for: all electronic appliances, and is especially useful for home use with video, TV, Hi-Fi etc.

Voltright™ The Voltright range comprises a range of devices that ensures equipment can still operate although the voltage level is outside its 'normal' range, by automatic monitoring of the mains and correction within set levels.

Fridge-Stab

The Fridge-Stab provides voltage stabilisation and protection for domestic fridge/freezers against high and low voltage. Input 130-290V, Output 150-250V. A built in startup delay to allow motors to decompress.

TV-Stab

The TV-Stab provides voltage stabilisation and protection for all TVs and multimedia equipment against high and low voltage. Input 120-290V, Output 140-250V. A built in startup delay will protect against power back surges.
