

The Sollatek AVR range

Automatic Voltage Regulators

WHEREVER mains supply cannot be trusted, Sollatek's comprehensive range of precision voltage regulators have a solution to match all your installation needs.

Sollatek is a world leader in the field of voltage regulation and protection, with over 150 precision made products.

From small domestic (250 watt) applications to large industrial 500kVA three phase applications, the Sollatek range of voltage regulators is your solution in the most unreliable power conditions.

Choose a Sollatek AVR - *when risk is not an option*

Main features and benefits

- ◆ Microprocessor controlled - high speed response.
- ◆ Solid State reliability - no moving parts.
- ◆ Widest input variation (of -30% to +22%).
- ◆ 1250 Volts per second correction speed
- ◆ High output correction accuracy (of +/-4%) -exceeds EC standards.
- ◆ Faster and smaller than servo operated units.
- ◆ Less expensive to buy and run than servo operated units.
- ◆ Quiet, unobtrusive operation.
- ◆ Full 2 Year warranty worldwide.
- ◆ A network of over 40 distributors worldwide.

Specifications at a glance

Input range	-30% to +22%
Correction speed	1250 Volts per sec
Response	Within 15 millisecond
kVA Rating	The Sollatek AVR range is wide and covers units from as small as 250VA up to 100kVA in single phase and 10kVA to1000kVA in three phase.
