

# There's an easier way to protect your appliances

The easiest way to protect your equipment is just to plug in the Sollatek Hivoltguard, sit back and let it take over all your protection worries.

Hivoltguard is fully automatic and will cut-out and reconnect at the safest time, making it the easiest way to protect your appliances.

## TVGUARD

No more blank screens from damage caused to equipment from over and under voltage levels. Sollatek Hivoltguard is here to protect your equipment and make life worry free.

Hivoltguard will take charge of your voltage fluctuations easily and safely, just plug it in and sit back and watch your favourite programme.

**Protects against:** • Spikes/surges • Powerback surges • Basic lightning • High voltage

 **Voltshield™**
