the power to protect

## Sollatek's global infrastructure is delivered through a network with local presence

### Global and local

Established for over thirty years in the United Kingdom, Sollatek is a manufacturer of innovative products in power control, energy saving, temperature control, and solar energy. With its head office in the UK - where engineering, production, sales, marketing and logistics are located - Sollatek has a network of partners across the globe.

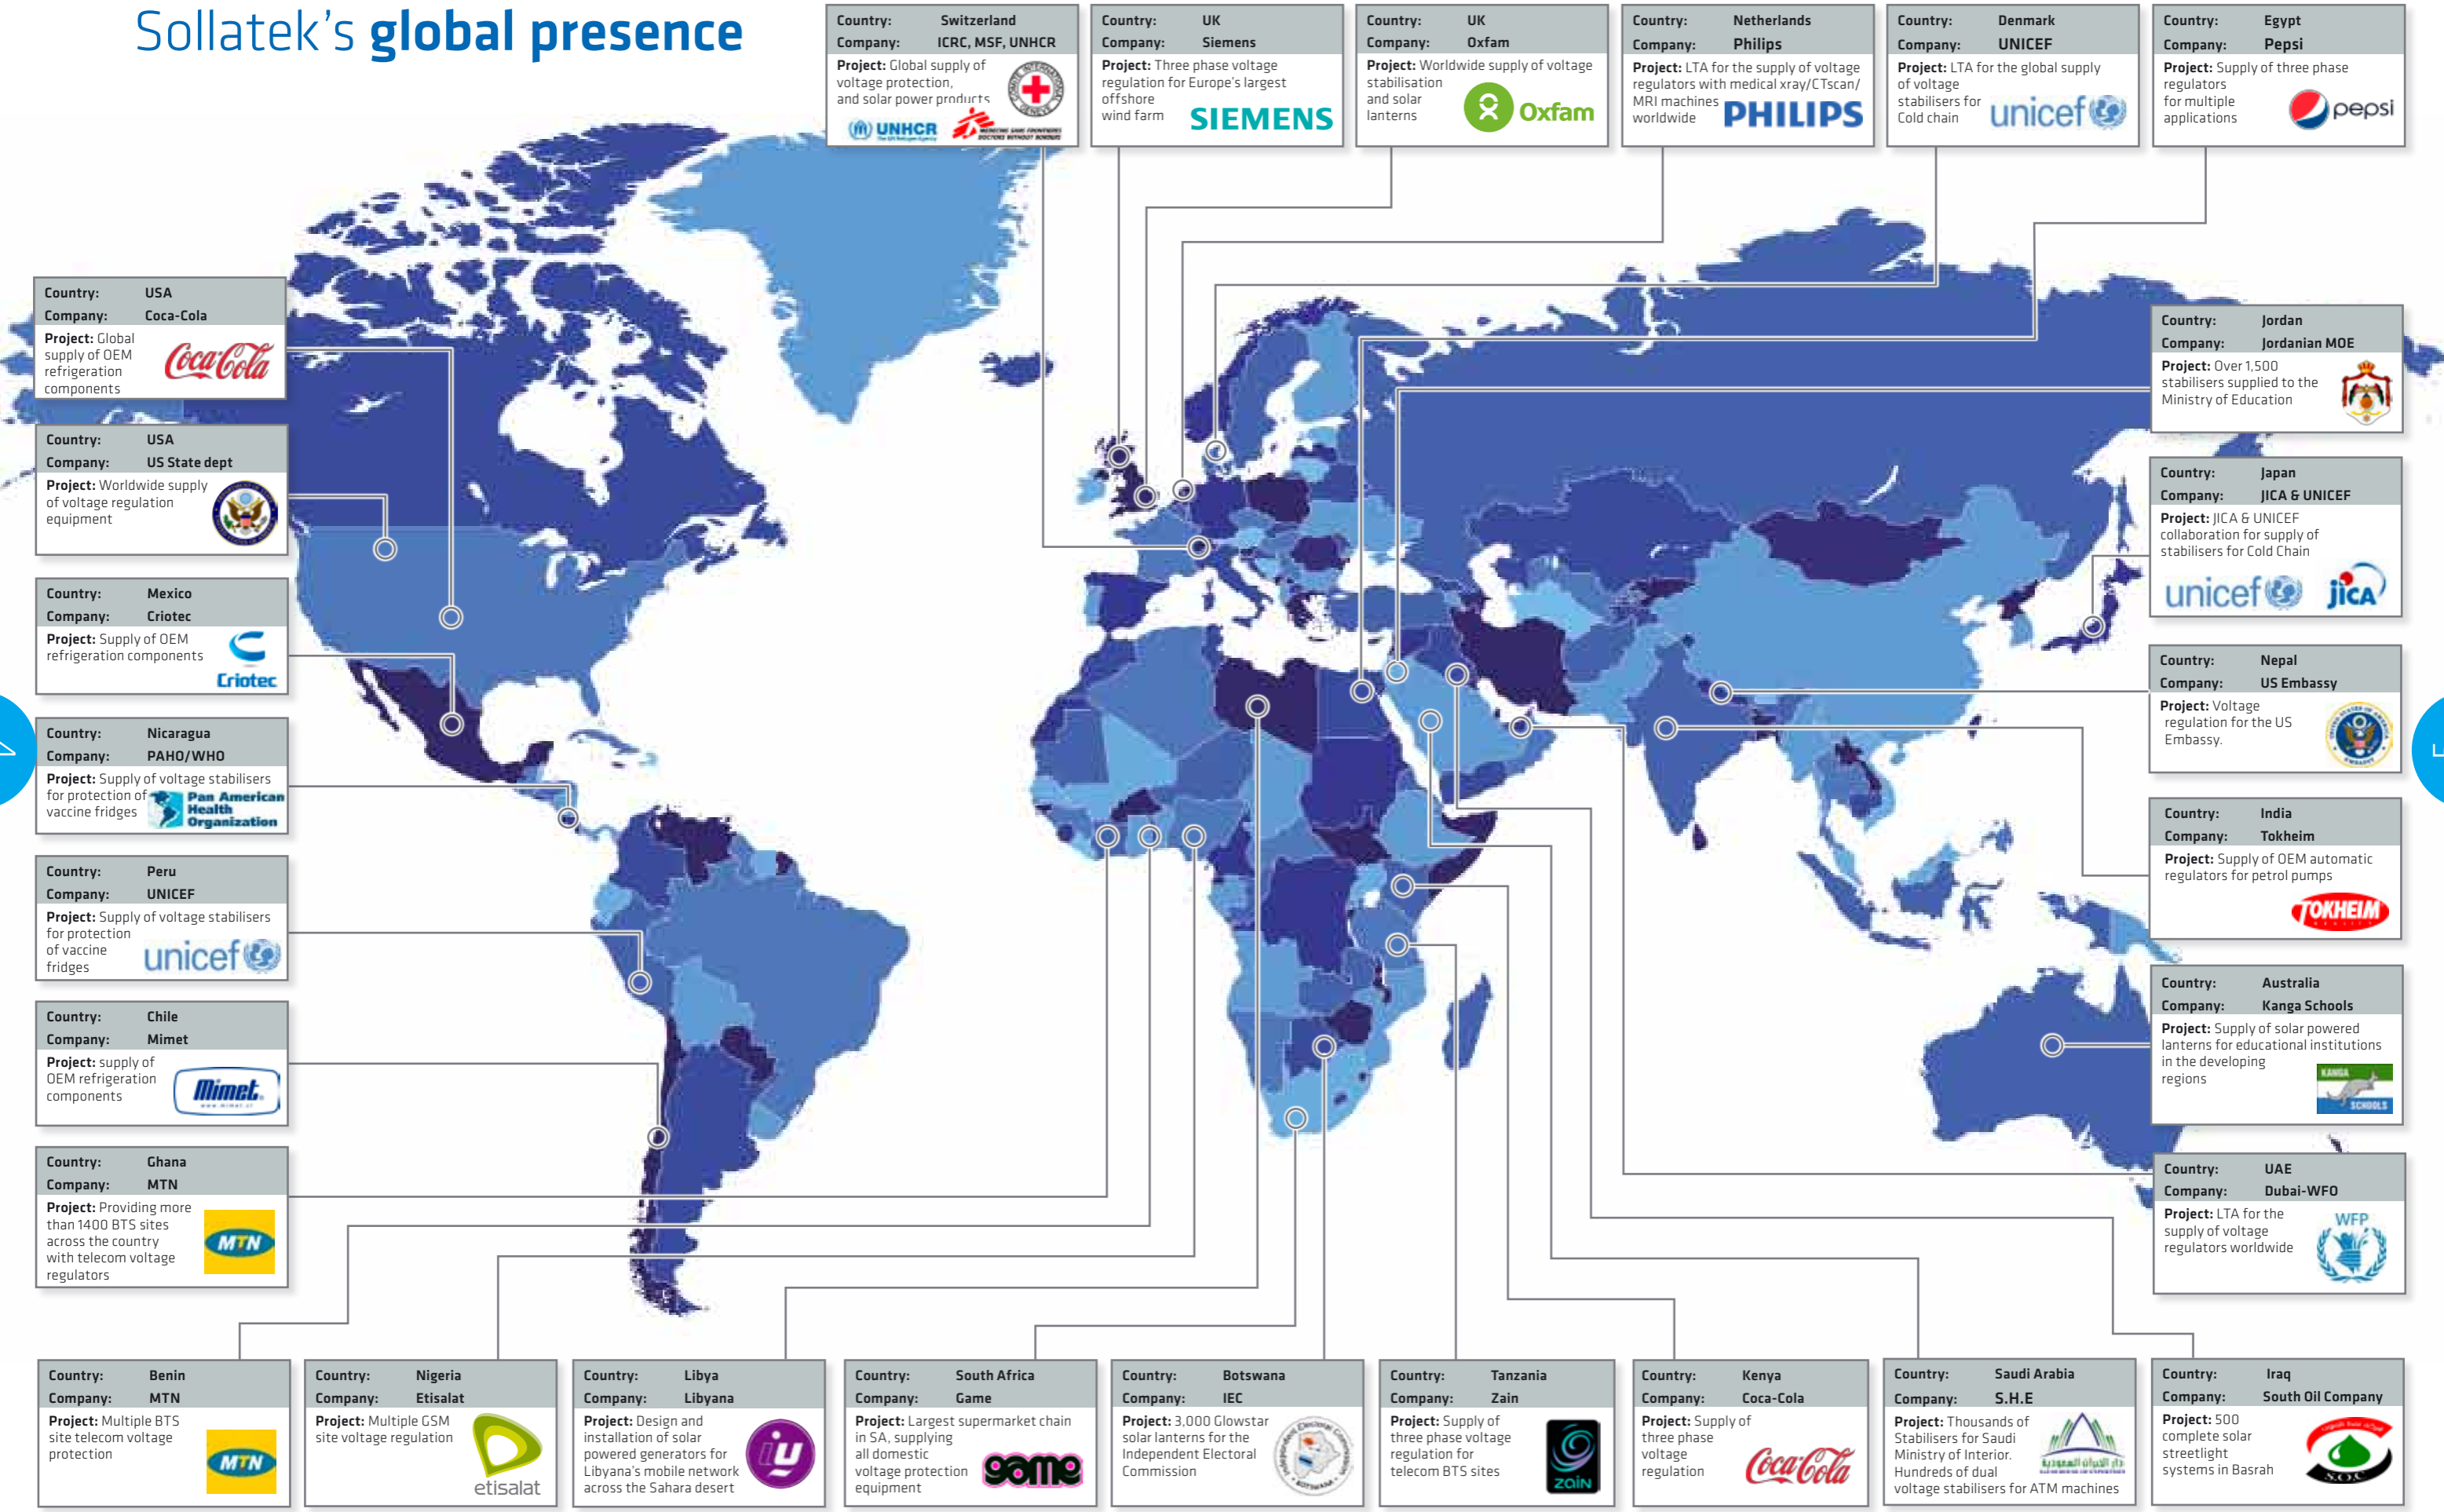

The Sollatek network comprises local Sollatek companies (with service centres) in over ten countries and distributors and resellers in over thirty countries.

We work closely with our partners around the world to deliver our promise of a two year worldwide warranty, and in some local countries this is further extended to a five year warranty.

With a customers across the world and a local presence in more than 30 countries, Sollatek is able provide support services wherever you are.
